How the Map of Peking Was Made.

How a military map of Peking was secretly made is told by General Sir Robert Biddulph. During the China war of 1860, in which Sir Robert was engaged, our army was greatly embarrassed by the absence of any map of the city. But it happened that the Russian legation had, only a few months before, contrived to make a map in spite of the jealous watchfulness of the Chinese.

They had sent an officer, in a small covered cart, such as they use to carry their women about, completely covered in. An indicator was attached to the wheel. He drove for a certain distance to a certain crossroad, for example, and "took a shot" with his instrument; then down the next road, and in that way made a complete plan of Peking, with all its streets and roads, both in the Tartar city and in the Chinese city. General Ignatieff, who produced the map, offered its use to the English. There were no photographers then attached to the army; but an Italian photographer, who had followed the army for his own private purposes, being set to work, produced a number of copies, which proved extremely serviceable.—London News.

THE PEOPLE'S PARTY CONVENTION.

It was understood before the Republican National Convention met at Minneapolis that Harrison would be its nominee and that it would declare against free coinage. A similar understanding existed regarding the Chicago Convention. It was a foregone conclusion that Wall Street would control the convention and that silver would receive little if any more consideration than it had at Minneapolis. Now the eyes of the farmers, the workingmen and the silver men, as well as of the politicians, are turned toward Omaha, where the People's party convention meets next Saturday. It is as generally understood that a plank for the free coinage of silver will be embodied in the Omaha platform as it was that such a plank would not be inserted in the Minneapolis and Chicago platforms, but it is not known who the nominee will be. There are several men mentioned in connection with the nomination for any of whom an independent American citizen might take just pride in voting, and none of whom are under the control of Wall Street, but some doubt exists as to the character of the resolutions that will be adopted.

The people are ripe for a revolt. They are dissatisfied with the old parties, knowing that they are controlled by the money powers and monopolies of the country. In every State in the Union the masses are discontented, and in greater or less numbers are asserting their independence of the old political machine men and demanding a change in the management of public affairs. This is particularly the case in the West and South. Kansas, Nebraska and the Dakotas are for a new party that is more in accord with the sentiments of the people, and not controlled by the monopolists. Minnesota is also out of line with the old organizations and requires but determined leaders to free it from the old party yoke. Several Southern States are also rebelling against Wall street domination and will unite their political fortunes with the West.

Colorado, Wyoming, Idaho, Montana and Nevada are up in arms against Wall Street rule and will wheel into line next November with the great agricultural States of the West and South.

Judging by reports from all sections of the country if wise counsel prevail and a rational platform is adopted pledging needed reforms and the repeal of legislation inimical to one of the great industries of the country, the nominee of the Omaha Convention will stand at least an even chance of being the next President of the United States. The old parties are alike on the financial question and differ only as to what articles shall pay the highest duty. The people recognize but little difference between them on matters which most concern the general public, and, no longer fearing the party lash or the taunt of place hunters, will vote for the nominees of a party whose principles they approve and whose candidates are not controlled by London and Wall Street brokers.

SILVER MEN MEAN BUSINESS

The Executive Committee of the National Bimetallic League was in session in Washington City last Monday. The Committee resolved that having failed at Minneapolis and Chicago to secure an explicit declaration in favor of the restoration of free bimetallic coinage to send several men to Omaha and urge the adoption there of such a platform and the nomination of such a candidate as the silver men can support.

Hon. Francis G. Newlands is Chairman of the Executive Committee of the Bimetallic League and Vice Chairman of the League. Assuming that he is in full sympathy with the other members of the Executive Committee who are sending men to Omaha to urge the nomination of a candidate that the silver men can support, the rumor that he is going to advocate the election of Harrison cannot be true. The true advocates of free coinage everywhere repudiate the nominations of the Minneapolis and Chicago Conventions, though such *friends* of the d. based metal as John Sherman support them. Mr. Newlands surely is not one of the latter kind, and would not retain the position of Chairman of the Executive Committee of a League which is sending men to Omaha to urge the adoption of a platform and the nomination of a candidate that the silver men can support, if he favored the election of Harrison or Cleveland.

Circulars have been issued calling a meeting of Catholic Archbishops in New York next October to consider the differences existing on the school question. The the thirteen Archbishops of the United States will be in attendance and Cardinal Gibbons will preside, and the meeting is looked upon as the most momentous conference of Catholic dignataries ever held in the United States.

BY TELEGRAPH!

News of Importance From Home and Abroad.

The Prohibitionists.

CINCINNATI, June 29.—The delegates to the National Prohibition Convention put in a hard day's work, ending late to-night after three sessions. A permanent organization has been effected, with Eli Ritter of Indiana as presiding officer and Sam Small of Georgia, the Evangelist, as secretary, and to-morrow the convention will be ready to pass upon a platform and nominate candidates. General Bidwell of California seems to have the lead for the Presidential nomination to-night. The proceedings before the Platform Committee show that there is a decided feeling in favor of the Prohibitionists taking strong and advanced grounds on various public questions other than prohibition.

Among the members of the Platform Committee is Thomas Magill from Nevada. On the new National Committee, which immediately re-elected Samuel Dickie as Chairman, in part as follows: From Nevada, E. W. Taylor.

The committees worked during recess. The Platform Committee selected Judge James Black of Pennsylvania as Chairman. The Committee on Rules and Permanent Organization, after a lively discussion, decided to recommend that only delegates actually present be allowed to vote in the convention. The honors of permanent organization were hotly contested. E. Ritter of Indianapolis was elected permanent chairman on the second ballot. Rev. Sam Small of Georgia was elected permanent secretary.

Delegates Arriving at Omaha.

OMAHA, June 29.—The advance guard of the Independent National Convention arrived to-day. N. R. Irwin, editor of the Southern Alliance Farmer, said the sentiment of the South was for a Western man, as the nominee and that Georgia suggested Congressman T. Winn for second place, or C. H. Ellington of Georgia. He said they would undoubtedly elect an independent State ticket and give the electoral vote to the new party. C. C. Post, Chairman of the Georgia State Committee, favored a Western man but did not want Stewart or Adams, as they wanted something besides free silver and were in favor of the sub-Treasury scheme. Word was received in Omaha to-day intimating that Senator Stewart had written a letter absolutely bolting the Republican party. It is also said that Senator Jones would do likewise, and as a consequence the Stewart boom has received an impetus, still the sentiment for J. B. Weaver leads.

General VanWyck said Graham positively refuses to permit the use of his name. The nominee will be Weaver.

Van Wyck also said a free silver platform will be adopted, thus carrying the silver States and throwing the election into the House. Troyer of Washington, Funk of Oregon and Brown of California are all Weaver men.

Another Strike at Carnegie's Works.

HOMESTEAD, Pa., June 29.—The intense feeling of the workmen at Carnegie's Homestead Steel Works, which has heretofore been controlled, has at last broken forth to-day. There are numerous hostile and exciting demonstrations on the part of the men. H. C. Frick, Wm. McBroon and several others were hung in effigy. When an attempt was made to cut down the effigies the workmen turned on the hose. The 32-inch and 119-inch mills have shut down. Several other departments will close to-morrow night and the men will be discharged. Instead of a strike it will be a lockout. The situation is hourly becoming more serious. The mill workers this afternoon said the association was strong and could afford to stand out three years if necessary.

Ordered to Leave in Twenty-Four Hours

VISALIA, June 29.—Rev. James Wilson, pastor of the First Presbyterian Church of this city, last night was given 24 hours to leave town.

Wilson owns a 20-acre vineyard 16 miles north of Visalia, which is occupied by a tenant named Miller, who has two daughters, aged seven and nine. Wilson was in the habit of taking the girls riding in his buggy, and on several occasions took undue liberties with them. Yesterday the father of the children came to town to kill Wilson, but was persuaded not to do so by a deacon of the church. Wilson acknowledges his guilt. He is over 70 years of age and heretofore has been highly esteemed. He left town this evening, leaving his family behind.

Silver Advocates Happy.

WASHINGTON, June 29.—The free silver advocates of the House to-day welcomed the news that the Senate has agreed to take a vote Friday on the free coinage bill. It is stated a recent poll of the Senate showed there was a safe majority favorable to the proposition involved in Stewart's amendment. In the event the bill as amended should so come over to the House and be referred to the Coinage Committee the free coinage people say they are confident it will be favorably acted upon.

America's 400th Anniversary.

WASHINGTON, June 29.—The President to-day approved the joint resolution directing the President to proclaim a general holiday commemorating the 400th anniversary of the discovery of America on the 21st day of October, 1892.

Shut the Door.

You hear it constantly. People feel the draughts, but they never think of the over drafts upon nature which impair the digestive organs, and makes the use of Simmons Liver Regulator necessary to effectually move the liver to action and aid the digestive and assimilative powers of the body. The Regulator is the medicine for all disorders of the stomach. Try it and be convinced.

BRITISH ELECTIONS

Queen Victoria held a council last Monday and signed a decree dissolving Parliament. Writs for the election of new members of the House of Commons were issued immediately and to-day the United Kingdom is in the throes of a political campaign. Advices from all parts of the country show that the greatest excitement prevails. At Sheffield Balfour attempted to address a meeting and was alternately greeted with cheers and groans. The crowd attempted to rush upon the platform and the police had difficulty in repulsing them and the meeting terminated in the wildest disorder.

In Great Britain the political campaigns are short but exciting. The moment Parliament is prorogued writs are issued for elections to take place in the boroughs immediately and a little later in the counties. In two or three weeks the elections are over, the new House of Commons assembles, Ministers who are in sympathy with the political views of the majority are appointed, and Parliament runs along until the Ministry is defeated or the session expires by constitutional limitation, which is seven years.

The colored people of Texas have organized a new party which has no connection with the Democracy, Republicanism, Prohibition or any other party heretofore in existence. The platform recites that Democracy is inherently opposed to the African, that Republicanism is false to him and deceives him, and that there is no hope for him in the People's party, and that he is the national balance of power. The party proposes nominating candidates for every office from President to Constable.

Free coinage was Democratic policy for more than eighty years. "It was," says the Denver News, "only after Wall street forced the gold bug Cleveland into the Presidential chair that it became a crime to advocate the 'dollar of our daddies' in Democratic councils."

The Denver News says when an American Congress demonetized silver in 1873 for British gold, it did not call an international conference to obtain permission before doing so. The monetary conference is a fake and a fraud.

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other.

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." MRS. ELLA A. GOFF, 61 Terrace Street, Boston.

MISCELLANEOUS.

The old story that "anything will do for smoking tobacco" is a wrong one, which many manufacturers have found out to their cost.

The preparation of tobacco for smoking requires special care in securing old tobacco and blending the different grades, to make a rich mellow smoke.

This is the secret of the great success of "SEAL OF NORTH CAROLINA."

MARBURG BROTHERS made good tobacco, and the smokers of the U. S. did the rest.

Packed in Patent Cloth Pouches and in Foil.

The present spell of warm weather is causing many to turn their attention to the cool, shady montain valleys. Several parties are making preparations to start on few weeks' outing early in July.

John W. Foster of Indiana has been appointed Secretary of State to succeed James G. Blaine, His nomination was confirmed by the Senate. Indiana now has two members of the Cabinet, Miller and Foster,

Hamstrong were given ten days each for vagrancy, and Indian John, who disturbed the peace and quiet of the city through the medium of fire water, was given fifteen days.

The remonetization of silver would enhance the value of property in Nevada fifty per cent., yet there are men who urge the people to vote for one of the other of Wall Street's candidate. Of course, they have a selfish motive for doing so; they will not deny that. It is not Republican nor Democratic to vote against the interests of the State.

J. Edward Stone, who left San Francisco for New York February 22d last on foot and who passed here about the middle of March, has arrived at his destination. He was not due at New York until the 4th of July. The distance traveled by him is 3,324 miles and he has certificates from railroad agents along the road, stating the hour of his arrival.

Everybody in Nevada, the merchant and professional man, the miner, mechanic and farmer, the man who is out of employment and the man who toils for a mere living admit that the opening of the mints to silver as well as gold would make times much livelier in Nevada and double the population of the State in six months, yet Harrison and Cleveland men want the people of Nevada to vote for ther pets and keep our mines closed.

A FARMER'S VIEWS.

Sound Politics and Wholesome Information.

EDITOR JOURNAL—It is generally conceded at the present time that trade statistics will show a balance in our favor for the year ending June 30, 1892, of two hundred million dollars. This should be a very gratifying showing and should be an evidence of general prosperity, but such is far from the case. In[these statistics of trade balances no mention is made of the movements of precious metals and no mention is made of the enormous amount of interest that is paid to the European bondholders. In place of the United States receiving any substantial or tangible benefits from this large balance of trade, supposed to be in our favor, it has taken the whole of it and fifteen or twenty million dollars of our specie to settle the year's interest on the securities which the European bondholders hold against the people and property of the United States, and the only way we can get any of this gold back from Europe is to buy it with more bonds and mortgages. For this purpose the bond holders and money kings have their agents abroad hunting properties that are not already incumbered for all they will stand in order to get their money into circulation so the debtor can get possession of it to again turn over to the bond holders in settlement of interest and in turn it goes back to circulation through more bonds. This is the financial condition and financial policy that the European money kings have fastened on the people and property of the United States, and if we continue to allow Europe to dictate our financial policy the time will soon come when it will not be in the range of possibities for the people to hope for any ultimate redemption of their debts. It is time for the people to look this question squarely in the face. This country is big enough and strong enough to have a financial policy of its own. This monetary conference of the nations is a delusion and a snare; it is a trick to get the people to defer action on the free coinage of silver. The Republican and Democratic parties by harping on the tariff, ignoring finance and by trying to straddle the silver question have lost the respect of the thinking public. The people's Silver party is the only party in the present campaign that is not afraid to handle the financial question without gloves and independent of the goldbugs of Europe and Wall Street. Will some high-tariff Republican or tariff-reform Democrat please show cause why their respective parties should not be snowed under in the coming election?

Haverly's Mastodon Minstrels.

Haverly's original Mastodons, the reputed kings of modern minstrelsy, will appear at the Opera House on Friday evening, July 1st. Never in the annals of minstrelsy has there been given such a performance of genuine negro minstrelsy as that now being presented by Haverly's Mastodons. Billy Rice, E. M. Hall, E. M. Kayne, Percy Denton, Harry Constantine and a host of other comedians keep the audience laughing from the rise to the fall of the curtain. Every feature is high class and intensely interesting. Bogert and O'Brien in a laughable musical sketch; the wonderful male soprano, Ellwood, in choice selections; Banks Winter, author and composer; Harry Constantine in his inimitable ballet dancing; Delmore and Wilson in character sketches, and the laughable operatic burlesque "Bill Trovatore," furnishes an entertainment that is light, bright and breezy, and goes with a rush and a vim that is truly refreshing in a minstrel performance. They come direct from a six month's run at Haverly's Casino, Chicago, where the company has played over 300 consecutive performances to packed houses, the greatest number of minstrel performances ever given in one place in the world.

"HOSS AND HOSS."

Two Star Comedians Next Saturday Night.

Speaking of "Hoss and Hoss" which will be seen at the Opera House next Saturday night, one of the Boston papers says the following:

"Charlie Reed and William Collier have long been rated, in theatrical circles, as among the very best of low comedians and naturally when it was announced that they were to star jointly in a new farce comedy production, a great deal was expected and confidence in their ability was so strong that the most glowing predictions were spoken and written and it witnessed the first presentation in this city of the new farcical com dy, "Hoss and Hoss," by these two gentlemen and their big company at the Hollis street Theatre last Monday night, should be a particularly exacting one and that to please them the performance must approach the extraordinary. Expectation had been raised to a high pitch but the curtain had not been up five minutes before the conquest was complete and the first round of applause was given. From that time on the evening was a succession of applause and encores. While the purpose of the first act is to give an outline of the story or rather an idea upon which the ludicrous incidents of the piece are hung, it goes with a dash and serves to introduce in a most interesting way the personnel of the big company and pave the way for the introduction of the long list of songs, dances and specialties that makes the second and third acts the liveliest and most enjoyable yet seen here in farce-comedy. The story was told in advance mention. Funny is hardly the adjective to apply to Charlie Reed's "Lawyer Charlie Hoss." He is more than funny, so much more that it cannot be told. He is a natural comedian with the finish of an artist. His conception is keen and not a point nor an opportunity is overlooked. He tells a joke with the greatest effect and sings a funny song capitally. William Collier's Judge Willie Hoss," is a charicterization, and while he preserves the farcical vein, a great deal of legitimate comedy very properly creeps in. His work is a study and his crisp drollery has the polish of genius.

MONEY MAKES THE MAN.

Why People Are Becoming Cowardly.

In a speech in the United States Senate, delivered June 2d, Hon, Wm. M. Stewart said:

"A man without money is a coward. Our farmers are becoming cowards; our business men are becoming cowards; they are becoming the slaves of the creditor. Few men are brave enough to walk along the street owing a tailor's bill which they cannot pay. There is no lady who visits the shops who does not feel embarrassed in a dry goods store if there is no money in her purse. The want of money engenders cowardice, but money inspires its possessor with the power of resistance. You may kick a tramp from your door, but put two hundred dollars in his pocket and you will treat him differently. I have seen this often in the mining country. I have seen a poor unfortunate driven from his boarding house, kicked out of saloons, and who would cringe to everybody, but let him strike a bonanza and come into town, and he would sacrifice his life for his honor. The transformation would be miraculous. The reformation did not begin until the people got some money to go to conferences. The object was to keep people away. They were poor and could not attend, and none but money kings could be there."

REASONS WHY

Dr. Price's Cream Baking Powder Is The Best.

FIRSTLY.—It is the oldest Cream of Tartar Baking Powder in the world, and has stood the test of 40 years.

SECONDLY.—Its makers have never succumbed to the temptation to introduce ammonia or alum in their goods, for the purpose of cheapening the cost.

THIRDLY.—It is made from the purest Cream of Tartar, refined in the immense plant at Jersey City controlled by this company, by patented processes used by no other refiner.

FOURTHLY.—The governments of the United States and Canada have endorsed Dr. Price's Cream Baking Powder after thorough examination, as have also the heads of our great universities, prominent physicians, boards of health and the public. It is used in the United States Army and Navy and in the cuisines of the most select clubs, hotels and private families.

FIFTHLY.—It is just what it is represented to be, viz: a pure Cream of Tartar powder and can stand on its record without any bolstering up by means of fraudulent certificates, or resorting to any other tricks practised—sometimes successfully—by other makers of so-called "absolutely pure" powders.

AN EXPLANATION AND ANSWER.

WHAT IS WINTERILLA?

Why, it is a pleasant and effectual remedy for the positive cure of Chapped Hands, Poison Oak, Salt Rheum, Eczema, Sun Burn, Tan; positively removes Freckles, and is one of the grandest luxuries for gentlemen after shaving. This is an exquisite article prepared with the greatest care by scientific experts. Its component parts are perfectly harmless, and the ladies toilet is not complete without it. One trial will convince the most skeptical that what we say of WINTERILLA is true. For sale by all druggists in 25c and 50c bottles.

Belvoir Castle.

Belvoir castle has come in for a fair share of newspaper anecdotes. Pseudo-Gothic in style, its broad turrets and battlemented walls stand on the top of a mound which was thrown up at the end of a spur of the Leicestershire wolds by Robert de Todeni, standard bearer of the Conqueror. From its "lordly terraces" the eye ranges over a wide expanse of landscape, on which there rise conspicuous the ruined keep of Nottingham and Lincoln's cathedral towers. The works of art are numerous, but, with one or two exceptions, of secondary importance. In the cellar is a monster cask of ale called after the founder of the castle. Its capacity is 1,300 gallons, and twelve people have dined in it. There is also a silver punch bowl, resting upon four massive eagle's claws, which is used on the occasion of a family christening. At the foot of the wooded hill is stabling for 100 horses; a mile and a half distant are the kennels for the fox hounds, and from the trees somewhat farther off there emerges the steeple of the village of Wolsthorpe, where is a farm noted for the breeding of prize cattle.—London Star.

Nicknames for Princes.

The Sailor Prince, as Prince George is often called, is reputed to be a gay and sociable young man, good natured, merry and very democratic in his tastes. When both he and his brother were at sea in the Bacchante he displayed, in spite of his being seasick with unsailorlike frequency, a marked aptitude for the naval profession. He was on friendly and agreeable terms with the other young officers on board, and after a time, finding that each of them was known by some handy nickname, he allowed them to drop his formal title and answered readily to that bestowed upon himself. He was known simply as Sprat, and his brother with equal good temper accepted the name of Herring.—Manchester (England) Times.

Wellington's Sense of Duty.

A most interesting anecdote of Wellington, illustrating the high sense of duty in all things, is told on the authority of the duke's housekeeper at Walmer castle. The huge Blue Book of 800 pages on the studies and discipline of the University of Oxford had been sent to him as chancellor. He was engaged on it the night before his death; he was going to bed, as it was late. He left the Blue Book with his pencil in it, and said to Lord Charles Wellesley, who was with him, "I shall never get through it, Charles, but I must work on."—Leisure Hour.

A Witty Customer

Went to a drug store and asked for SOZODONT. The storekeeper said, "We're out of that, but here is something just as good." The practical customer said, "No you don't," and walked out to a neighboring store and got a bottle of SOZODONT.

Gold Which Tourists Leave in Italy.

How does Italy, a country without gold mines, find the gold to pay the ten millions a year due to foreign holders of her bonds, not to speak of the heavy balance against her on her foreign trade? Mr. Dering, secretary of the British embassy in Rome, declares that the only solution of the question at which it is logically possible to arrive is that this amount of gold is annually brought into the country by foreign travelers, who swarm during the four seasons of the year in one part of Italy or the other.

From calculations made by the United States consular representatives in various parts of this country it has been computed that for the last ten years the average expenditure in Italy of American citizens has been about £7,000,000. Mr. Dering thinks it would scarcely be an exaggeration to place the collective expenditure of British, French, Austrian, German and other foreign travelers at double this amount.

This, we are reminded, is irrespective of the money spent in the country by the 50,000 to 60,000 pilgrims who annually visit the Eternal City, and of the amount of which they are the bearers in the shape of donations to the holy see. —London News.

Charming people, these exceptional people! Here's a medicine—Dr. Price's Golden Medal Discovery for instance, and it's cured hundreds, thousands that're known, thousands that're unknown, and yet yours is an exceptional case! Do you think that that bit of human nature which you call "I" is different from the other parcels of human nature? "But you don't know my case." Good friends, in ninety-nine out of a hundred cases, the causes are the same—impure blood—and that's why "Golden Medical Discovery" cures ninety-nine out of every hundred. You may be the exception. And you may not. But would you rather be the exception, or would you rather be well? If you're the exception it costs you nothing, you get your money back—but suppose it cures you?

Let the "Golden Medical Discovery" take the risk.

"German Syrup"

J. C. Davis, Rector of St. James' Episcopal Church, Eufaula, Ala.: "My son has been badly afflicted with a fearful and threatening cough for several months, and after trying several prescriptions from physicians which failed to relieve him, he has been perfectly restored by the use of two bottles of Boschee's German Syrup. I can recommend it without hesitation." Chronic severe, deep-seated coughs like this are as severe tests as a remedy can be subjected to. It is for these long-standing cases that Boschee's German Syrup is made a specialty. Many others afflicted as this lad was, will do well to make a note of this.

How Men Carry Their Hands.

"A sure indication of character is found in the way in which a man carries his hands," said C. G. Clarke, of Boston. "You notice men on the streets. See the young man with swinging arms and palms which are displayed to all who take the trouble to look. He is one of that class whose heart is as open as his hands. He is frank, unsuspicious, a free spender and a believer in the honesty of his fellows. Notice the business man more advanced in years. His hands are always closed so tightly that he gives you the impression he is ever expecting an attack. This is the attitude of men bent upon a certain object. It is an attitude which displays the qualities of determination and fight.

"In debate you will observe some of our lawmakers emphasize a statement by hammering the desk before them with their knuckles, while others, apparently equally impassioned, are satisfied with the use of the palm. You may rest assured that if sheer determination will succeed, the man who applies his knuckles will win before his colleague who uses his palm."—St. Louis Globe-Democrat.

Notions About Sleep.

One of the rudest acts in the eyes of a native of the Philippine islands is to step over a person asleep on the floor.

Sleeping is with them a very solemn matter. They are strongly averse to waking any one, the idea being that during sleep the soul is absent from the body, and may not have time to return if slumber is suddenly broken.

If you call upon a native and are told "He is asleep," you may as well depart.

To get a servant to rouse you, you must give him the strictest of orders. Then at the time appointed he will stand by your side and call, "Senor! senor!" repeatedly, each time more loudly than before, until you are half awake; then he will return to the low note, and again raise his voice gradually until you are fully conscious. — Exchange.

Kissing Teething Babies.

A common superstition is that if a colored person will kiss a baby twice in the mouth the process will assist it in teething and make this otherwise troublesome period for children more easy to bear.—Pittsburg Dispatch.
